Re: Transfer LC & KCL Claims, S/021/013 and Mill, S/021/014, Iron County, Utah.

Dear Mr. Whited:

Enclosed is a copy of the February 16, 1995 letter, requesting an annual report for the mentioned mining operations. We are sending this in response to the phone conversation between yourself and a member of our staff on March 20th. You mentioned in the conversation that operations at the mill has never begun and that Lynn Orton was operating the LC & KCL Claims.

In order to transfer these mining permits from your name to Mr. Orton, we need a permit transfer form (MR-TRS enclosed). You will need to complete the section of the current operator and have Mr. Orton complete and notarize the section as the new operator. If Mr. Orton is taking over responsibility for the mining operation and also the mill, each operation must have a transfer form. Please make copies as needed.

Until such a time as we receive the completed permit transfer form(s), or until such a time that we receive notification that you have been fully released from reclamation obligations at these sites by the BLM, you will be held as the party responsible for reclamation of the sites.

Thank you for your cooperation and immediate attention to this matter. If you have any questions regarding this letter or the February 16th letter, please contact me.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
